

DBT STAR COLLEGE SCHEME

DBT STAR COLLEGE SCHEME grant has a multi-sectorial approach that supports colleges and universities offering undergraduate education to improve science teaching across the country. This Scheme was launched in the year 2008 by the Department of Bio-Technology, Ministry of Science and Technology, Government of India

This scheme has the following objectives:

- **Cultivate critical thinking skills among students.**
- **Advocate for practical, hands-on experimentation in basic science subjects at the undergraduate level.**
- **Inspire an increased number of students to pursue higher education in science.**
- **Provide assistance for the development of academic infrastructure and laboratory facilities.**
- **Promote effective teaching methods and expose students to unique experiences in experimental science.**

The college received approval for the esteemed **DBT STAR COLLEGE SCHEME** funding grant in January, 2023. The span of the scheme is three years, focusing on enhancing experimental facilities, organizing guest lectures, industrial visits, training sessions, seminars, workshops, and Faculty Improvement Programmes. These initiatives aimed to enhance the understanding of the latest tools and techniques in the field among both students and teachers. The participating departments include Botany, Chemistry, Computer Science, Physics, Mathematics and Zoology.
