157 responses

- No
- Nothing
- Nothing
- No suggestionsYes
- NoneGoodGoodNo
- Every classroom should have smart boards.
- Some research work should also be given to students in respect to the DSE courses.Testing should be strict

- Provide smart class, proper sports facilities, business development and guidance etc.
- There is a need of career counseling and
- -Most of the times students are unaware about the opportunity to participate in co-curricular activities in college
- There be proper class schedule.library section should be organised and increase.curricular activities should be there.
- There is no room for improvement
- Class time schedule should arranged in a manner which will utilizeProviding practicality and having a career counseling faculty
- Implemented creative Initiative Focusing on the wellbeing of students plays a major role in the experience they have at college. While the majority might already expect week-long awareness
- campaigns regarding a certain issue - such as mental health - think outside of the box to implement more creative ideas that will engage them further. Some ideas include: Confidence and communication workshops.
- Walking groups. Yoga classes.
- Mentor programmes. Coffee, cake and a chat.
- Ideas like these can feel more personal to students and offer something unique to them, compared to the support they already receive.
- More use of technology
- Steady Syllabus completion and revision before exams as in last days all remaining topics are just winded up in hurry...
- Teaching should be practical and example based. And disciplined.
- Entrance exam
- Lowering the student teacher ratio.
- Improvement of infrastructure especially for arts block.
- Depth coverage of syllabus
- Some societies for extra co curricular activities like music , dramatic, civil services
- More group discussions
- Establishing another library Educative and healthy environmentMore interaction with students
- Online material and smart classes are in the best for getting interest students in the class .
Infrastructure of classroom
- Nice experience
- Opportunities to all students to participate in extra curricular activitiesEverything is perfect
- Regular classes of every subject
- I don't know
- Better classrooms with the active and integrated use of technology.
- No need to improve anything
- Regular lectures
- more functions should be added to the institution's program to enhance the college experience
Make presentations for students
- Change in teachers method of teachingNeed practical classes
- Students who are not interested in extra curricular activities should not be affected by it.Mostof the times teachers stop the classes for these activities

- Arts students should also get some technical methods for study and there should be Educational tour also for students.
- Accomodation in the library and canteen Education system is very satisfied already Regular classes.
- Chage economic teacher
- First of all, improve infrastructure especially Arts block, then provide basic resources to carry out smart classes, provide syllabus books in Eng medium, there's need that some professors should go for humble attitude towards students, rest is good
- More of interactive session can be initiated among the students and some minor improvements in facilities can be done
- There should be used demonstration , practical and other means to provide best quality of education along with this there should b site visit
- Good experience
- A bit of focus on infrastructure and campus development especially for arts students, and smart boards in every class would further increase quality of edu. So students would feel that they are getting best possible learning opportunities!!!

- Library
- Availability of smart boards Technological improvement
- Teaching through online sources in classroom
- Regular classes
- Student interactions sessions Representative of all the department
- Regular classes Tecnology based classes
- Compulsory basic computer Increase library space
- Providing overall teachers and I think there will daily classes .To involve each and every student
- More reliable and detailed resources so as to cover the entire syllabus in time or enhance the scope of recommended books for the subjects.
- Smart classrooms and different libraries for all streams. Some Class room are small in colleges
- Practical and case studies May be more activites
- I thought that students wants a skill. Like speaking skill working skill and also improve our knowledge. So teachers helped the students on that situation and also share there experie and journey to improve students vocabulary and other things.
- Need to focus on creating students intrest and giving opportunity to everyone
- Providing more choice of courses :: More emphasis on practical knowledge and skill development :: creating discipline oriented surrounding
- Arts Infrastructure
- Debates in class on certain social, economic, scientific, and philosophical topics. Which will

enhance our knowledge as well as, there will creation of scientific and practical temper in students and we will appreciate different ideas of different individuals.

- Increase student engagement, engage with the community, emphasize mental health, encourage continuous assessment and feedback.
- Increase wifi strength Smart class
- Professor have to pay attention on hindi medium student atleast because not everyone can understand English medium. Sometimes english words are tough to understand.
- Study tour, group discussion
- If not all children are able to participate in classes then everyone should participate and it should be practical.
- More active involvement of students in the class through debates and discussions Library and girls washrooms
- Big Library , regular lectures, extra classes , teaching beyond books Interact with students
- Students as well as teachers should be punctual to the classes. I want heaters in arts bloc .
- Smart class rooms
- I felt the need to improve the college library. The size of the library should be large so that all students of the college can get a chance to study in the library.
- There is a need of using technology as an educational tool and other is good communication between student and teacher.
- The educational institution should have all the facilities Technology learning
- A better infrastructure for the arts block and also a bit more tech oriented approach.
- Use technology as an educational tool.
- Focus on student centered learning.
- Provide professional development opportunities for Professors and Instructors.
- Open environment for students to debates and discussion on political and social issues

154 responses

- No
- No
- Noo
- Yes
- Nothing
- Rules should be implemented in college
- My experience in this college was lovely and memorable overall I am happy as I chose this college for my graduation.
- compulsory participation of every student in co-curricular activities because it will help them to boost their confidence and
- NA
- Provide better sports opportunities
- Best experience of learning in this college No thanks
- No comments

- To improve the sanitation and also the desks need a change ASAP.123
- Nope
- Provide play ground for different games
- I think that we should make some steps to improve the college condition to make it beautiful and attractive
- Please improve the canteen and library
- Although the teachers are quite considerate and sensitive about the student's queries,discussions and tests for revision should be done more frequently.
- If authorities take steps for the improvements suggested by me in a response to question no.16, then it's enough...Thank u
- My overall experience had been great till now
- Along with education, institution should provide trips ,camps for students Yes, it is correct
- No .not at all Overall is good
- Regular classes
- Cut down extra and cultural functions
- Increase educational and technology based programs Compulsory computer classes
- increase library space
- Regular classes
- Student teacher interactive classes Questioning sessions
- The college campus is too small and has a great rush there also the small playground
- Students should given the opportunities like class competetions based on group work so that students could become more vocal and develop their communication skill on a positive attitude.
- Campus improvement Arts block improvement
- My comment is when classes are not going on so that situation teachers passed that msg students because students are present in class and wait for msg and reply but some times teachers are not responded on students msg they took likely and ignored the students feelings.
- It provides us a good competitive climate
- No ,i am very satisfied from facilities but there is lot of room for improvement.
- No.
- Infrastructure improvement of arts block shall be done Extra classes

- It's quite good.So I don't think there is some need for it...
- मुझे लगता है की हमारे collage म एक cyber cafe होना चािहिए।
- It is necessary for professors and students to know each other So that students can easily present their problems related to studies to the professor. I think it is very important for professors and students to know each other first in order to study and learn.
- Shortage of rooms in arts block, size of library is very short it should be improved
- There should be an entrance examination for everyone to get admission in this prestigious institute. Many arguments can be given for this –
- First, the examination can measure students' intelligence, capacity, and level of college-going tendencies.
- Second, an entrance exam ensures the best selection of talented, brilliant individuals for this College.

- "Entrance exams are a terrific outlet for students who are excellent in their core courses but are unable to achieve decent aggregate grades due to disciplines such as English".
- Classes should prioritize the acquisition of new knowledge rather than focusing solely on attendance and grades.
- Infrastructure, technology and practical learning have to be worked upon. Everything is fine
- No comments
