

DEPARTMENT OF GEOLOGY

The Department of Geology welcomes you on a journey full of knowledge, wisdom and adventure. Located in the heart of the North Western Himalayan range, the surrounding geological environment provides students with an opportunity to understand the beauty and evolution of our planet.

HISTORY

The Department of Geology at Centre of Excellence Govt. College Sanjauli is contributing to the world of geoscience since 2018.

AIM

We aim to inculcate knowledge and passion regarding the subject in the student's mind, which is not only beneficial from the academic perspective but also provides ground for harboring love and respect for the subject, creating a strong a base for a future geoscientist.

EXCITING ACTIVITIES

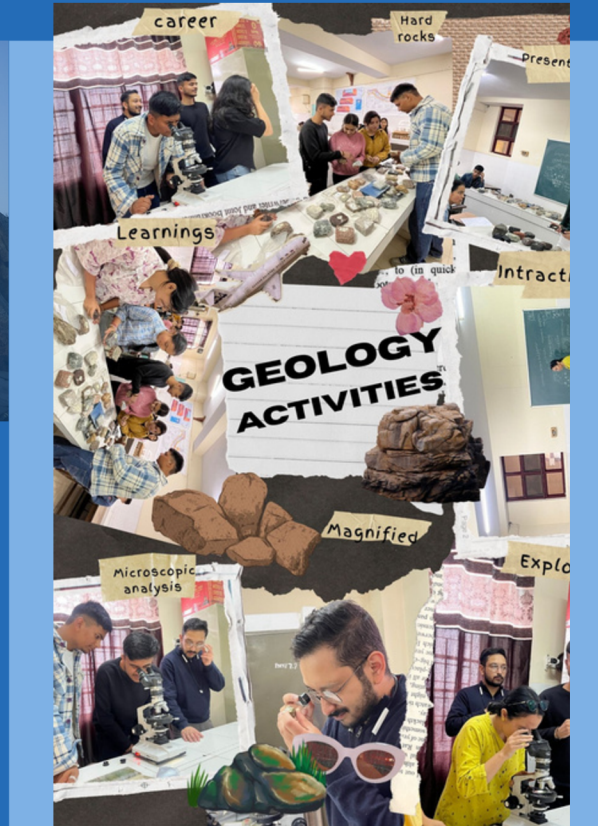

VISION

Our vision is to create a suitable environment for students to understand the fundamentals of the geological world, in addition to this we ought to provide learners with a rigorous educational set up beyond the walls of our classroom, so that they can have sufficient field based knowledge to foster the understanding of geodiversity and its importance.

We intend to promote the development of proper scientific temperament of our students, so that there is ample space for independent thinking and creative actions to manoeuvre over various academic as well as on field obstructions.
