## 2.10 REMEDIAL CLASSES RECORD FOR THE SESSION 2024-25

**% of student benefitted: 20% (700 Students)**

The Remedial Classes Program is designed to enhance the learning outcomes and examination performance of students identified as slow learners. These students are recognized based on their overall classroom performance throughout the academic year and their results in internal or house examinations.

Once identified, slow learners are paired with advanced learners who demonstrate academic excellence and active classroom participation. This peer-learning approach fosters a collaborative environment where students learn by sharing knowledge, solving problems together, and supporting one another.

During remedial sessions, the entire course content is systematically revised through group discussions, conceptual clarifications, and practice exercises. Teachers play a central role in planning, guiding, mentoring, and motivating students to strengthen their understanding and regain confidence in their abilities.

The program not only bridges learning gaps but also nurtures self-confidence, teamwork, and consistent study habits. By combining academic support with peer encouragement, remedial classes help ensure that every student has the opportunity to achieve academic success and holistic development.

- *Records of Remedial Classes are maintained in the attendance register*
- *The span of classes ranges between 10 to 22 days*

## Program Outcomes

- **Improvement Rate**  
Students showing significant academic progress
- **Attendance**  
Consistent participation in remedial sessions
- **Pass Rate**  
Increased success in examinations
- The remedial classes successfully bridged learning gaps, enhanced student confidence, and improved overall academic performance. Students demonstrated better understanding of core concepts, increased participation in regular classes, and showed marked improvement in assessment scores throughout the 2024-25 session.

### REPORT OF REMEDIAL CLASSES SESSION 2024-25

#### DEPARTMENT OF CHEMISTRY

##### C.O.E. GOVT. COLLEGE SANJAULI SHIMLA-6

The House examination was held in December 2024. On the basis of performance of students, some of the students were identified as slow learners and some were the fast learners. The remedial classes were taken to enhance the performance of slow learners. A group of seventeen students was made. Fast learners delivered a particular topic to slow learners and eight classes were taken by them. It was found that their performance was better as compared to previous examination.

#### B.Sc. I

Topics covered: - Aromatic Hydrocarbons, Inductive effect and Kinetic theory of Gases, Slater rule and structure of alkenes.

The House examination was held in December 2024. On the basis of performance of students, some of the students were identified as slow learners and some were the fast learners. The remedial classes were taken to enhance the performance of slow learners. A group of fifteen students was made. Fast learners delivered a particular topic to slow learners and eight classes were taken by them. It was found that their performance was better as compared to previous examination.

#### B.Sc. III

Topics covered: - Kinetics of Polymerisation, Chemical properties of Polynuclear Compounds, Calculation of LAMBDA using Woodward Rule
