2. Teachers' Special Innovative Ideas : Library Book Bank

Library Book Bank Facility: 2024-25

The Library Book Bank is an innovative institutional practice of the college aimed at ensuring equitable access to academic resources for all students. Under this scheme, students deposit a refundable security amount at the beginning of the academic session, against which prescribed textbooks are issued to them for the entire academic year.

This facility is especially beneficial for students from economically weaker sections, rural backgrounds, and first-generation learners, as it reduces the financial burden of purchasing costly textbooks. The long-term issue system allows uninterrupted access to study material, thereby supporting continuous learning and academic preparedness throughout the year.

Overall, the Library Book Bank functions as a student-centric and welfare-oriented initiative, contributing significantly to academic continuity, social equity, and institutional best practices.
