

Action Plan for Gender Sensitization

1. Regular sensitization activities will be organized to orient and re-orient students and staff about social stereotypes about gender and gender roles.
2. The Film Readers club will screen films that challenge problematic ideas about gender including heteronormativity and normalization of power imbalances and binaries.
3. All gender equity programs will be designed in a manner that there is equal participation from boys and girls.
4. The Girls' Common Room will be made more lively and comfortable with addition of furniture and accessories.
5. Members of the Women's cell will make themselves available for counseling for issues pertaining to gender. The members themselves will undergo regular training sessions for such counseling.
